Ênte 50

Wireless Streaming Preamplifier

Introduction

Ênte 50 is a high-end audio streaming preampilifier with network and bluetooth aptx HD connectivity. Applying Ênte 50 to your current stereo system will enable you to stream music from your smart device, USB NSA or streaming services, such as Spotify, ,Tidal or Qobuz in high resolution by 4STREAM App, AirPlay, Bluetooth or other third party compatible apps. Lots of Hi-Fi hardware components, such as ESS3023 DAC, Cirrus Logic ADC are implemented to make a great sound quality. Adding more units to your home audio system can set up a wireless multiroom or multizone whole house audio system , it will give you totally new and great experience to play and enjoy music.
